A seasoned technology professional, he holds a first-class degree in computing and mathematics from the University of Wolverhampton. Commencing his career as a web developer and graphics designer, he garnered valuable experience in content creation and Web development. Transitioning to QA Engineering, he honed analytical and problem-solving skills. Currently, as a UI Engineer at Virtusa, he specializes in designing accessible interfaces for a British Telecom project, ensuring compliance with WCAG 2.0 and Section 508. His diverse background spans software development and freelancing in multimedia and social media marketing, reflecting a continuous commitment to innovation and problem-solving, showcasing a versatile skill set adaptable to various roles in the tech industry.
